WORK EXPERIENCE

Searce Inc, Bangalore | Software Engineer

July 2022 - Present | 2 years

Worked as one of the L3 support engineers for **ONDC (Open Network for Digital Commerce), A Govt. Initiative**. The role involved innovating architectural changes to the product to meet the increasing request load, introducing new features, fixing bugs in existing production environments and providing L3 (Level 3) support for the product. Built various internal tools like data migration scripts, mock data generation scripts, Encryption utilities that would help the L1/L2 teams to automate tasks.

Worked closely with testing and devops teams to ensure seamless deployments to production without any hassles. Worked along with L1/L2 teams 24/7 to solve the issues of the customers.

Tech Stack: **Java, Springboot, NodeJS, PostgreSQL, GCP**

AdoptEV Technologies, Faridabad | Web Developer Intern

June 2021 - August 2021 | 2 months

Developed a booking site to enable customers to book intra city logistics services online. This system also comprises an admin portal where orders are handled, and drivers are allotted.

Tech Stack: **ReactJS, Bootstrap, Firebase, Razorpay API, Google Maps API, NodeJS**
